702

Form at least one vertically-oriented non-conductive reinforcing structure on a substrate

704

Form a dielectric layer surrounding the reinforcing structure

Fig. 11

Form a first dielectric layer over metal conductors and an intralayer dielectric
--

Form a second dielectric layer over the first dielectric layer
--

Pattern the second dielectric layer to form reinforcing structures

Form a third dielectric layer over and adjacent the patterned second dielectric

Planarize the third dielectric layer

Form inlaid metal interconnection in the third dielectric layer

Fig. 12
